The Largest Retail Dahlia Growers in the West

CANBY, OREGON

A Letter to Our Customers

Dear Friends:

Once again we are pleased to send you our catalog of fine dahlias for the new year. We truly believe that among the many varieties offered each of you can find worthwhile additions to your own garden.

Just a word of caution this year—order early to avoid disappointment. As most of you are no doubt aware Western Oregon and Washington were hit by a severe early cold wave last November. While our loss was relatively moderate, we have had an early demand unlike anything we have ever experienced before—more than twice that of any previous year, some varieties already being sold out and of necessity being left out of this catalog.

Be safe—send your order now.

Our gardens are open to the public in blooming season. We recommend coming between late August and frost. (Some years we have a frost the first of October and this past year we lasted until the middle of November).

For those of you who can not come to the gardens we have a full schedule of shows during September. Watch the local papers for our show dates. Orders placed at the shows are reserved for spring delivery.

Our thanks to each of you for patronizing Swan Island Dahlias. We strive to sell you top quality tubers of some of the nicest dahlias grown.

Happy Gardening!

Dick and Shirley McCarter

JAPANESE BISHOP

(See cover illustration)

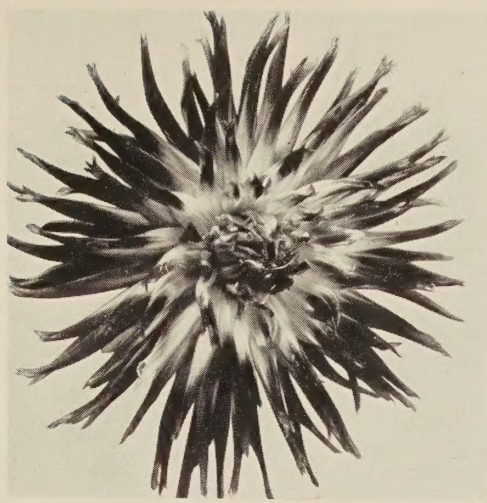

Everybody's choice! A real "gem" to add that touch of distinction to your garden. We always take more orders for Japanese Bishop than any other variety of any type at our shows and gardens. The rich red flowers are strikingly contrasted with a very dark, almost black foliage, particularly effective for mass plantings. Frequently used as a hedge or as a foreground for taller growing varieties. The bushes grow about 3 feet in height and are sure to please in any garden spot.

As mentioned in our letter we bring you the finest dahlia shows ever staged each fall. This shot was taken at one of our annual shows held in the Auditorium at Meier and Frank's in Portland, Oregon. The shows are free of charge and we encourage you to visit at least one of them during the season so that you can actually see the many types and colors in bloom. You may make your selections and put your order on reservation for the following spring delivery. Our customers have been delighted with the many ideas they have gotten for their own arrangements. We sell only quality dahlias and always have someone from our gardens on hand to give you any assistance you may wish.

**ALL 5 OF THESE TOP-NOTCH
CUT FLOWER DAHLIAS ONLY \$2.50**

This collection of miniature decorative dahlias contains some of the best cutflower varieties ever introduced in any country in the world. Each plant will bear up to several hundred blooms each season — and don't forget — the more you cut them the more they bloom! Our Portland florists buy these by the thousands each season for their work in floral arrangements, and our own customers who have visited our gardens have informed us they have kept some of them up to two weeks after being cut. Remember to cut them in the cool of the day, leaving them in water over night or for a period of not less than 4 hours before arranging. Also, be sure to cut any dahlia when it is fully mature, if cut too young they will droop almost immediately and if cut too old they will shed their petals almost immediately. **DON'T MISS THIS OPPORTUNITY TO HAVE ARMLOADS OF CUTFLOWERS FROM LATE JULY UNTIL FROST!** For other varieties and colors see our General Listing on page 11.

Miniature Decorative and Waterlily Dahlias

FAIRY . Soft pink. 5' to 6'	\$.50
GERRY HOEK . Rich pink with slight yellow shadings at the center. By far the most popular cutflower dahlia of any type ever grown. A very profuse blooming dahlia with long, strong stems holding the flowers erect. Everything about this dahlia is outstanding and we cannot recommend it too highly. See illustration page 8. 6' Waterlily type50
GIMPEL . A very unusual "freak" flower much admired and ordered in our garden. The color is a blend of red, pink, and white with the predominating color varying even on the same bush. 5'50
GLORY OF HEEMSTEDE . This clear bright yellow waterlily is the best addition to this class for several years. The flowers are held very upright on cane-like stems. Sometimes has semi-double flowers. See illustration page 8. 6'60
GOLDEN DROP . Rich gold waterlily. 4'. Stock very limited. Order early75
GOLDEN LEADER . A pure gold which will last for days when cut, even in the hottest weather. Can be grown to 6" to 7" in diameter if disbudded. See illustration page 8. 5'75
HELLY BOUDEWIJN . An early blooming pure white in the waterlily type. Tall 6' bushes are covered with blooms all season long. Sometimes comes semi-double late in the season50
HONSHU SCARLET . Bright fiery scarlet red contrasting strikingly with a rather dark green foliage. 4'50
IKE . Free blooming blood red cutflower. Long stems. 6'. Illustrated on page 850
LILY BELLE . Very delicate light satin pink. Good keeper. 4'50
LITTLE SISTER . Bright red with white tips. 5' to 6'50
MELODY . Delicate rosy lavender. Low 3' bush with hundreds of blooms. Illustrated on page 850
MEMORY . Free blooming dark red waterlily type on 4' bush. Outstanding garden plant75
MOUNTAIN SUNSET . Fiery orange red. 4' bush50
ORCHID LADY . Beautiful orchid shade. Profuse bloomer. 4' ..	.50
PURPLE QUEEN . Rich royal purple uniformly tipped white. 3'	.50

SPoon CHRYSANTHEMUMS

CUSHION MUMS

These attractive gay little mounds of flowers are among the easiest of all mums to grow and have no superior in the garden world for borders or large rock gardens. Marvelous for mass effects, they are also extensively grown as potted plants. Their early blooming habits delight the gardener in the North where fall storms frequently interfere with proper blooming of later blooming types. They can very successfully be left in one spot for several years with larger and more spectacular displays of glorious color as the plants become larger. Try some of these compact little beauties this year and use dahlias of a complimentary color for background.

SPOON CHRYSANTHEMUMS

These delightful mums remind one somewhat of a cactus dahlia expect that the ends of the tubular petals flatten out in a tiny spoon. They are uniquely artistic and especially delightful for flower arrangements. In some varieties the spoon is the same color as the tube and in others there will be a variation in shade. Bushes average 3' to 4' in height.

DDT TREATMENT for 25 acres of "Swan Island Dahlias". Regular dusting and spraying assures disease-free stock.

Young DENNIS McCARTER in Swan Island Dahlia field located in Canby's Riverside district. Flowers are cut daily for Portland Florists.

GROWING DAHLIAS

PLANT after danger of frost. Hole about 6" deep. Set stake at planting time. Thoroughly mix in cup of bone-meal or rotted manure. Place tuber flat with sprout up. Cover lightly. Fill in as plant grows.

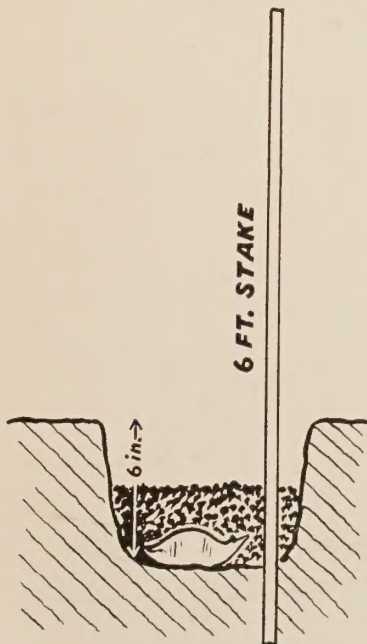

WATER well when you plant and give thorough soaking every week to 10 days after.

FERTILIZE with one good application of barn manure and several light applications of commercial when blooming.

CONTROL BUGS with DDT or Lindane for thrip, Leaf Hoppers, and cucumber or spotted beetle. Tobacco dust or spray for aphids. Malathion for Red Spider mites.

CUT FLOWERS late afternoon or early morning. Boil stems 90 seconds then immerse in deep water in cool place several hours before arranging.

DIG DAHLIAS late in fall, usually after frost. Lift carefully and store in cool (35° to 50°) place. Inspect monthly. If tubers shrivel, storage is too hot and dry. Mold can be controlled with ample ventilation.

TERMS OF SALE

1. All bulbs are fully guaranteed to be true to name and free from disease and any which prove otherwise will be replaced cheerfully upon return.
2. Due to the increased postal rates we ask that you include 25c with each order. In most cases this does not take care of the total postage but helps take care of the increase.
3. C.O.D. shipments are NOT ACCEPTED. They cost you more, and mean much work for us.
4. Delivery in Southern United States will begin March 1st. Orders shipped earlier on request, and on customer's risk against loss from freezing. Shipments to Northern United States will begin April 15th. These dates are the earliest practicable for planting in their respective areas. (In Oregon we plant from the 15th of April to the 15th of June with fine results.) Dahlias should be planted about 90 DAYS PRIOR TO THE TIME YOU WANT THEM TO BLOOM.
5. NO ORDERS SHIPPED AFTER JUNE 10th. Orders received after that date will be held for the following year unless otherwise specified.
6. ORDERS ARE HANDLED PROMPTLY IN THE ORDER THEY ARE RECEIVED.
7. Please list second choices. If substitutions should be necessary, we will send varieties of equal or greater value in similar color and type.
